A photograph of a brick school building under a clear blue sky. The main building is a two-story structure with a red brick facade. A single-story extension, labeled "SCIENCE" in large, white, sans-serif capital letters, is attached to the left side. This science wing features several windows and a small entrance. To the right of the science wing is a dark, single-story addition with a glass-enclosed porch area. Bare trees stand in front of the building, and a dirt path leads towards it from the bottom right corner of the frame.
